

LOCALISM

Communities up and down the country are being urged by the government to turn up the volume, to get their voice heard and run local services. Sandy Town Council is an example of local people trying to influence what happens in their local area. We want to make Sandy's voice heard and we want to hear more from our residents. Please contact us with your concerns, ideas and projects.

Sandy Town Council is accredited with the Foundation Level of the nationally recognised Local Council Award scheme which demonstrates that the organisation is managed effectively and that the council has an elected mandate.

Sandy Town Council is an elected statutory body of 15 members with legal powers to provide services for the community of Sandy including Beeston. The council publishes its strategic plan on its website along with all its policy documents, information about the council and community news. The Town Council regularly reviews its activities and looks for new opportunities to enhance the experience of living in Sandy. We also work in partnership with other organisations to help them improve their local service delivery.
